

A close-up photograph of white cotton fibers, showing their natural texture and color. The fibers are intertwined and appear soft and fluffy. The lighting is bright, highlighting the individual strands and their natural curves.

Cotton with...

Emilcotoni

Our story...

International experience and constant research come together to shape the future

Emilcotoni S.p.a. was founded in **Piacenza** in **1987** as a dyeworks specialised in cotton yarn finishing. Between the 1980s and 1990s it grew and developed, by choosing to focus on the creation, production and sale of cotton yarns.

By constantly **seeking** the best raw materials and placing attention to **quality**, during its history the company managed to attain levels of excellence for its products and a key **warehousing service** for its various items.

By investing in **state-of-the-art machinery** capable of guaranteeing top quality, now **Emilcotoni** provides its customers located worldwide with the best cotton yarns, plus its **30 years of international experience** and a unique production flexibility in the sector.

Our quality...

Quality is in our DNA

We are passionate about our job. Over the years, the search for excellence has led us to discover and perform finishing processes on raw materials such as **Sea Island Cotton, Giza 45 and Suvin**, making them unique: high quality cottons that have become the cornerstone of the **Quintessence** line by **Emilcotoni**. Unique and matchless yarns, with which the most exclusive fashion brands weave their best sweaters.

From fibre to yarn

Direct control over our production, from the fibre to the yarn, is our prerogative. We guarantee a detailed, meticulous manufacturing process in line with regulations and ethics. During the manufacturing process of raw materials, each batch rigorously undergoes strict checks before being introduced on the market.

For us at Emilcotoni, offering quality means consistently meeting our customers' expectations, both in terms of products and services.

SEA ICE

From raw white yarn to final product: coupling, twisting, gassing, cone-to-hank, steaming, hank-to-cone, meterd cones preparation, electronic clearing, conditioning are some of the processes carried out in a state of the art way in our production plant.

Our Technology...

Texilon: our quality Factory

We believe in what we do and this is what drove us, and keeps on driving us, to invest in order to guarantee increasingly higher quality standards for our customers.

We created **Texilon**, our **quality Factory**, a mix of passion, technology, know-how and, thanks to our specialised personnel and top quality ongoing training, we guarantee control over the entire manufacturing process of our supply chain, as in a thread.

Effective, Efficient, Economical

With **Texilon**, we can control every step of the manufacturing process and meet the demands of a market seeking quality and flexibility. We created and organised a company with top performance levels, an efficient factory, a firm designed to express the three "**S**": **Effective, Efficient and Economical**.

Our research...

Research: a vocation and an added value

Research has always been, and always will be, our source of **innovation**. It enables us to interpret new and constantly-changing market needs with an original approach that ensures quality, traceability and sustainability. Research that means a vocation for aesthetics, which drives us to always find new solutions in terms of style and that stimulates us to strive for beauty and elegance.

The aim of our journey across innovation is the pursuit of that unique and precious **added** value that attracts our customers from all over the world. A benefit that stems from our **Italian spirit**, from the distinctive features of our company, our identity and our vocation.

Exclusive blends for unique garments

Innovation starts from the search for the best cotton fibres, such as **Sea Island**, **GIZA 45**, **Suvin** and **Supima**, and the numerous **blends specifically created for exclusive items**. Un'attenzione particolare A special focus is placed on search for patterned yarns and **multifibre items**, deriving from accurate blends with silk, cashmere, vicuña, alpaca and special nylons, to create elegant and innovative effects.

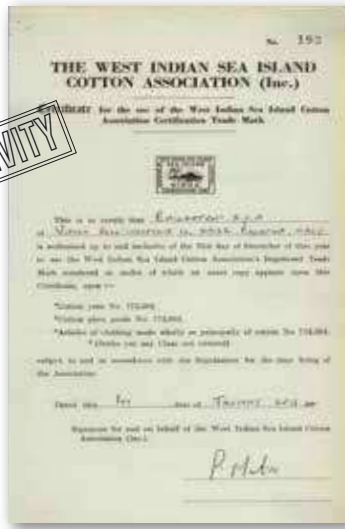

A constant evolution in the colour ranges as well, new and redesigned range of colour cards following the man and woman range following seasons and final products

and a strict internal Code of Ethics

Genuine and certified yarns

Emilcotoni is at the forefront of the fashion world: manufacturing with common sense and, above all, with raw materials guaranteed in terms of quality and safety has always been our prerogative.

Certifications, traceability and environmental sustainability are synonymous with guaranteed and authentic products. Our commitment to protect the environment and people is part of our history, which is why we have adopted an internal **code of ethics** that represents the essence and philosophy of our company.

The many audits we successfully passed have allowed us to obtain a substantial number of certifications: our achievements speak for us.

Certified by ICEA [GOTS 2014-17]

Our service...

High quality stocks

We have created a dynamic and efficient **warehousing service**: 1500 available colors, 18 articles in various titles, immediate shipping all over the world with unique colour charts and the **innovative removable single panels** creatives and designers are very keen on. The one and only cotton **warehousing service**, designed and built for knitted outerwear, is an absolute benchmark in the cotton sector for its innovation, dynamism and service.

Our yarns in stock are checked and processed along our production chain with the latest machinery to guarantee top-notch quality.

We have always been attentive to the environment and to the development of sustainable products. Since 2010 we have implemented a photovoltaic system that covers 100% of the energy needs of our Piacenza site.

In addition to significant energy savings, we avoided the emission of 64 tons of CO₂ into the atmosphere.

All issues related to environmental sustainability are part of our development plans.

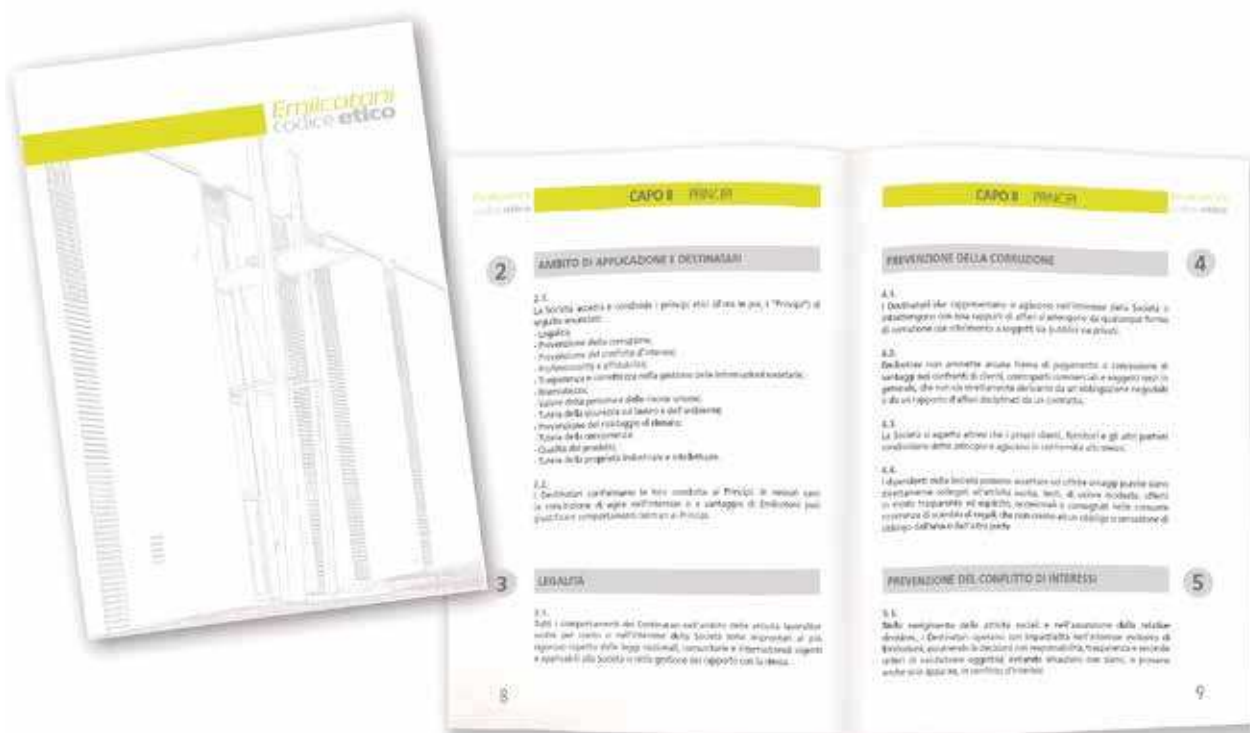

Our responsibility...

Responsible reliability

The attention in offering products and services in line with **Corporate Social Responsibility** is something for which we have been standing out right from the start. This is the drove our company to adopt an internal **code of ethics**, which in its general provisions protects principles such as lawfulness, professionalism, reliability, transparency and fairness, whilst respecting the workers involved in all processes, from the supplier to the customer, safeguarding work and the environment.

We believe that work and the protection of general ethical principles can go hand in hand and **we want to be a tangible example of this.**

Our exclusivity...

From supplier to strategic partner

The close **collaboration** with top fashion brands constantly stimulates us to create new yarns for the knitwear and jersey market, and makes us proud of being able to provide our contribution to the production of unique and exclusive creations.

The privileged rapport with client companies is not limited to this aspect: indeed, **Emilcotoni** often plays a leading role within the companies themselves, by holding **seminars** and technical refresher **workshops** for fashion designers.

Our creativity...

At the service of fashion designers

To allow designers to expand research and creative experimentation as much as possible, we offer a wide range of innovative cotton yarns and blends, arranged in exclusive **color charts** specifically designed to enhance our products and simplify creative flows. We have also provided your creatives with the opportunity of immersing themselves in a stimulating and elegant design space, to work surrounded by designer items from all periods of time, by clothes from prestigious private collections, by art and fashion volumes collected in a truly unique library.

For the first time, our **Smart Color Reference** creation introduces removable and smart **colors palettes**, highly appreciated by our customers all over the world, also for their distinctive, unusual, playful aspect.
